

Location

The Nutrition Counseling Program office is located inside the Bennett Street entrance of the Faxton Campus, 1676 Sunset Avenue, Utica. The office is the last office on the right, by the green elevators.

Sports Nutrition Counseling Program

The Sports Nutrition Counseling Program is geared toward improving the nutritional knowledge and performance of athletes of all ages and abilities. It provides individual nutritional counseling, body composition analysis and much more to athletes in the community as well as to individual athletes and teams at schools and colleges. For more information or to schedule an appointment, call **315-624-5207**.

Core 4 Program

Core 4 is an individualized weight management program for anyone interested in losing weight and adopting healthy eating habits. This program focuses on healthy eating, goal setting and weight maintenance. It includes a one-on-one initial visit with a registered dietitian to assess health and weight status, energy needs for weight loss and self monitoring parameters, along with 11 additional group education classes.

For more information on whether a nutrition appointment is right for you, call a registered dietitian today at **315-624-5207**.

Eat Right. Live Right.
Nutrition counseling program

At the Mohawk Valley Health System (MVHS) we offer personalized nutrition counseling and weight management education programs for both the community and corporations.

Registered dietitians complete a comprehensive nutrition evaluation for you, allowing you to develop an individualized plan that fits your goals, medical needs and lifestyle.

Through our programs, you gain the tools you need to improve your health as well as prevent and manage disease.

Join Us and Get Fit for Life!

Nutrition appointments may be scheduled for a variety of health conditions and age groups including, but not limited to:
