

Admission Criteria

- **Patients must reside within Oneida County.**
- **Patients must be homebound.** Most insurance providers require patients be confined to the home. Medicaid does NOT have a homebound requirement. You may be considered homebound if the absences are infrequent and for short duration such as for church, hair dresser appointments, etc. or to receive healthcare treatment.
- **Patients must be under the care of a physician.** Your physician must have seen you within 90 days of the referral to VNA since your physician must document the need for home care services.
- **Be in need of short-term, intermittent, skilled nursing or physical therapy services.**
- **Payment -** VNA Services are covered by most insurance such as Medicare, Medicaid, Blue Cross Blue Shield, MVP, etc. as well as private pay. We do NOT accept Humana, CDPHP, Aetna and United Health Care; we do, however, accept Empire under United Health Care. We would be happy to investigate your insurance to determine what is covered and bill the insurer directly on your behalf.
