

# Just the Facts

MVHS & WYNN HOSPITAL

There's so much happening in healthcare in our region – at times it's hard to stay updated! That's why Just the Facts is being reinvigorated. This weekly publication, published on Tuesdays, will provide you with the latest information about MVHS and the Wynn Hospital!

## TOPIC FOR THURSDAY, AUGUST 1, 2024:

### *Wynn Hospital's HeartCARE Center Reaccreditation*

Wynn Hospital of Mohawk Valley Health System (MVHS), has received reaccreditation as a prestigious HeartCARE™ Center: National Distinction of Excellence from the American College of Cardiology (ACC) for the third year. In fact, we were the first healthcare organization in New York State to earn this accreditation and one of the first to achieve this honor nationally.

#### **What does it take to be a HeartCARE Center?**

Established in 2018, this is the highest recognition hospitals can receive from the renowned American College of Cardiology. Wynn Hospital of MVHS, in partnership with Central New York Cardiology, achieved this distinction based on meeting specific criteria, on-site reviews and proven quality standards. It is only awarded to hospitals that demonstrate excellence in cardiovascular care through comprehensive process improvement, disease and procedure-specific accreditation, professional excellence and community engagement.

Accreditation as a HeartCARE Center is based on a rigorous on-site evaluation of the staff's ability to safely and effectively evaluate, diagnose and treat patients as well as participation in ongoing quality improvement initiatives and numerous cardiac registry programs.

Plus, **MVHS is the *only hospital in the state* to achieve ACC accreditation in its Electrophysiology (EP) study.**

These recent awards demonstrate the exceptional cardiac care and services available at the Wynn Hospital. We remain committed to providing open heart surgery.
