

Just the Facts

MVHS & WYNN HOSPITAL

There's so much happening in healthcare in our region – at times it's hard to stay updated! That's why Just the Facts is being reinvigorated. This weekly publication, published on Tuesdays, will provide you with the latest information about MVHS and the Wynn Hospital!

TOPIC FOR WEDNESDAY, OCTOBER 30, 2024:

Celebrating Wynn Hospital's One Year Anniversary

On October 29, 2023, we moved 226 patients to Wynn Hospital from St. Luke's and St. Elizabeth – and all in less than 10 hours.

It's hard to believe that a year has gone by since that first day. We are so grateful to everyone who was a part of that first day, and to those who have been working with us since that day, ensuring we continue to deliver high-quality care to our community.

Here's a quick snapshot of some of the things we've accomplished together in this past year:

November 2023 through September 2024	Volume
Inpatients	17,073
Surgeries and procedures	18,203
Emergency Department visits	63,129
Visitors	200,750 (average of 550 per day)
Ambulances per day	72
Babies born	1,104
Laboratory tests run	1,645,466
Imaging tests	222,317
Meals served	242,512
Cafeteria meals	430,789

But it's more than numbers, it's about the thousands of lives that have been touched by our employees, volunteers and providers at the Wynn Hospital. Check out stories about patients and our talented and caring employees and providers on [this website](#).

The opening of the Wynn Hospital is the beginning of a new chapter in healthcare for the Mohawk Valley – and it's so much more than a hospital! A medical campus is forming in downtown Utica. Earlier this year, CNY Cardiology moved their offices to State Street across from the Wynn Hospital ED. MVHS opened a retail pharmacy and a lab blood draw station in the same location, and we're awaiting NYS approval to open imaging and specialty physician offices there as well.

Our footprint in medical education has also been growing dramatically! Over the last two years, we have added five residency programs to our medical education division. Today, we have residents in podiatry, psychiatry, OB/GYN, general surgery and transitional year – in addition to our two long-standing residency programs in family medicine and dentistry. Plus, we are the clinical site for third and fourth year medical students from Lake Erie College of Osteopathic Medicine and the University of New England. That's more than 140 physician learners on our campus today. That's in addition to the nursing students from our St. Elizabeth College of Nursing and other clinical students from area colleges. Yes, we are truly a teaching hospital and medical campus!

One-year anniversary video

From our first EmployeeFest and Walk to the Future to the ribbon cutting, milestones achieved, challenges we faced and all of the monumental moments in between, this video provides a glance back at it all: <https://www.youtube.com/watch/EKmKWMJ09lo>
